

Project Newsletter

October 2023

The Collie Battery is Neoen's first 4-hour long duration battery as well as its first major project in Western Australia. Stage 1 of Collie Battery sized at 219 MW / 877 MWh is under construction. The project has development approval for 1 GW / 4 GWh.

Construction update

Early works have progressed well, with the successful upgrade of the bridge that leads to our Collie Battery project site.

Construction will continue to ramp up as the team aims to complete **full site mobilisation** in October. The site access track is currently being constructed.

A supporting development approval to construct a 45m high Communications Tower is under review by the Shire of Collie.

Supplier Information & Networking Session !

If you are a local jobseeker or supplier and interested in working with us, come along to our Supplier Information & Networking Session at the **Collie Ridge Resort**.

Say hello to our project team and find out about our project on **26 October 2023** from **3pm - 6pm**. Please direct any employment queries to:

aiprocurement@ugllimited.com
